### **DRAWING AMENDMENTS**

Please substitute the enclosed replacement sheets depicting drawing Figures 1-6 for the drawing Figures 1-6 as originally filed.

In the corrected drawings, Applicant has added the numerals 20', 21' and 34' to clearly depict the pair of acoustic inlet openings (20, 20'), the pair of acoustic exit openings (21, 21'), and the acoustic waves (34, 34'). As now depicted in Figures 1-6, the acoustic waves (34, 34') enter the inlet openings (20, 20'), travel down the pair of acoustic paths 15, and exit the pair of exit openings (21, 21'). In particular, one acoustic wave (34) is now indicated by a single line arrow and the other acoustic wave (34') is now indicated by a double line arrow.

Further, Applicant has revised Figure 2 to clearly depict the exit openings (21, 21'). Specifically, Applicant has removed part of the webbing (35) in Figure 2 to illustrate the acoustic waves (34, 34') exiting the pair of exit openings (21, 21').

Respectfully submitted,

Jesse B. Ashe, III
